Dive Instructor / Watchkeeper / Deckhand

- Day/overnight trips to the Great Barrier Reef, responsible for ensuring safety of crew and passengers
- Carry out Deckhand duties and minor maintenance while underway as required, maintain an engineering log, daily issues register/maintenance register, complete ropes book for Master Class V
- Ongoing training of crew: safety procedures on board, use of equipment, handling ropes, gangways, lifting, daily procedures, daily itineraries, cleaning/maintenance
- Maintain a continuous improvement focus, identifying efficiencies and developing new procedures
- Ensure crew and other staff are kept up to date with maintenance and other issues using good communication skills
- Create good working relationships with crew, passengers, management and other companies working in the area
- Conduct introductory dives, guiding certified divers, and all associated boat work
- As a restricted coxswain I also drove dive tender to take certified divers to sites and acted as relief supervisor to cover holidays
- Teaching Open Water through to Divemaster courses, and training crew in boat operations aboard the Atlantic Clipper.
