

MY ADVENTURES BOATING

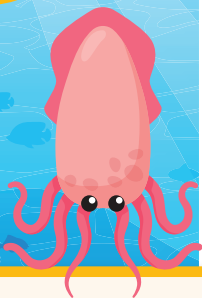

UNDER THE SEA

DISCOVER BOATING
.com.au

ACTIVITY

1

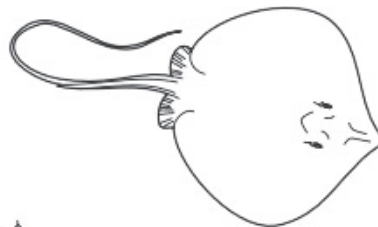

FUN FACT

The most poisonous fish in the world is the **stonefish**

DANGERS IN THE OCEAN

WHILE IN OR NEAR WATER ALWAYS TAKE CARE AND KEEP CLEAR OF CREATURES THAT MAY STING OR BITE

Draw a line to match the sea creature names with their picture, then colour them in

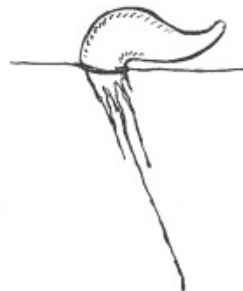

Jellyfish

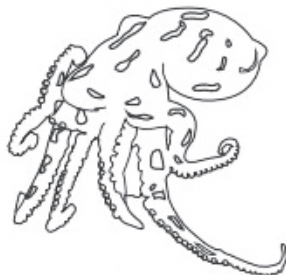

Stonefish

Stingray

Bluebottle

Blue-ringed octopus

KEEPING RUBBISH OUT OF OUR OCEANS

DRAW A LINE TO SHOW WHAT RUBBISH GOES INTO WHICH BIN

RECYCLING

ORGANIC

GARBAGE

All drains lead to the ocean, so always place your rubbish in a bin so it doesn't end up in one of our precious waterways

ACTIVITY 2

FACT

Approximately
1.8 billion
kilograms of
trash enters the
ocean per year

FACT

Roughly every 2.5
square kilometres
of ocean has more
than **45,000 pieces**
of plastic floating in it

WHERE TO DROP AN ANCHOR

An illustration of an anchor on the seabed. The anchor is grey and has a red rope attached to its crown. The rope extends diagonally upwards towards the top right corner of the image. The seabed is sandy and features various pieces of coral in shades of pink, orange, and green, along with some dark rocks. In the background, there are blue hills or mountains under a blue sky. Several blue fish are swimming in the sky, and three jellyfish are floating in the water. There are three circular callouts containing text: a large light blue one on the left, a medium dark blue one in the center, and a medium light blue one on the right.

How much anchor rope do you let out?

Generally you let out 3 times the depth. So if you are anchoring in 5m of water you need to let out at least 15m of rope

Anchor away from seagrass beds

Always anchor in an open area

Your anchor is your handbrake at sea

FIND - A - WORD

THESE ARE SOME OF THE THINGS THAT MIGHT BE FOUND AT THE BOTTOM OF THE SEA, HOW MANY CAN YOU FIND?
