¹ The regions are based on Maritime Safety Queensland's operational boundaries

² Vessels registered in Queensland where the registered owner has provided an interstate address

³ Vessels registered in Queensland where the registered owner has provided an overseas address

⁴ Vessels registered in Queensland where the registered owner has provided an incorrect postcode

⁵ With the creation of the Gold Coast Waterways Authority in December 2012, the Gold Coast Maritime Region has become a management area within the Brisbane Maritime Region

Note: Maritime Safety Qld has twice revised the operational areas of the maritime regions (January 2010, January 2013). Consequently, comparative analysis of figures for 2010 to 2012 and 2013 onwards with earlier periods is impractical.
